

# CONSENSUS BUILDING **Workshop 1**

## WOODBINE/CHUMUCKLA

### CORRIDOR TRANSPORTATION STUDY

**Santa-Rosa County** will be conducting the first of two Consensus-Building Workshops for the Woodbine/Chumuckla Corridor Transportation Study. This study will identify transportation improvements in the corridor needed by 2025.

Citizens are invited to assist the County in the development of improvement alternatives. A consensus-building workshop is a forum for a diverse group of citizens to discuss major transportation issues and challenges and, ultimately, to develop consensus on strategies to address these issues and challenges. This First Workshop will focus on the understanding of current travel patterns and the consideration of alternative travel routings. *To maintain continuity, participants are requested to participate for the entire workshop from 8:30a.m. to 3:00p.m.*

**Consensus-Building Transportation Workshop**  
**Saturday, August 27, 2005—8:30a.m. to 3:00p.m.**

**Pace High School—Freedom Hall**  
**4065 Norris Road, Pace, FL 32571**

### Major Discussion Topics

- **Land Use and Transportation Growth**
- **Regional Travel Demands and Issues**
- **Local Travel Demands and Patterns**
- **Strategies to Improve Traffic Operations and Safety**

Please contact Beverly Hutching at Santa Rosa County to reserve a space in this Consensus-Building Workshop! The Workshop will be limited to 30-50 participants! Refreshments and lunch will be provided to the Workshop attendees.
